## Saddlebag Rack

FFR-DSI's Saddlebag Rack attaches right to the freezer case with steel "straps" that hold the Rack in place. This space saving Rack acts as an end cap, increasing impulse sales and adding product visibility. Adjustable shelves allow for a variety of packaging to allow for cross-merchandising of many product categories.

### Features and Benefits

- Increase impulse purchases.
- Suction cups on the back prevent swinging and sliding.
- Sturdy steel shelves are adjustable to accommodate multiple product heights.
- No need to move display unit to clean floor underneath.
- Steel "straps" across top of case hold units in place.
- Back is a pegboard to allow for pegged product. (Not shown)
