## **Half Moon Spot Display Dump Bin:**

Steel dump bins for use as spot displays around store. Half moon design allows displays to be merchandised against walls, end caps, registers, etc. Dump bins are a proven way to increase sales and reduce merchandising labor. Market research shows that product in dump bins promotes a psychological assumption that the products are discounted, which increases sales. Average product sales increased from 10-15%.

Adjustable bottom allows you to quickly change the depth of the bin to accommodate different inventory spacing needs and still look full. Optional removable sign kit for merchandising with or without pricing signage.
